1) He is great, he is very well prepared and awesome at explaining everything.

2) Franklin is the best TA I’ve ever had. If I hadn’t gone to section and office hours I wouldn’t have learned anything. He is very flexible with his office hours and there are always plenty of people there to get help because he explains things so well. He relates to students well and would make an amazing professor.

3) He was very helpful but seemed to drag some things on. I did not get a lot of help from the sections most of the time, but I did get a small bit.

4) Franklin was a great help in this class. I am sure that I would have failed without his assistance, our professor was unorganized and did not explain methods for which the class had questions. Our professor often questions about how he reached an answer by explaining that he “used a bit of blackboard magic” or “hocuspocus”. Overall I found discussions with Franklin to be far more productive than an entire week of lectures with the professor.

5) Frank is a good guy. I really like him. He knows his stuff.

6) He’s a good TA. Simple and to the point. Creates ways for you to understand the material better.

7) He wastes a lot of time going over things that are not so important.

8) I believe that Frank is an extremely devoted individual. He takes pride in teaching math. As oppose to simply giving the students the answers, Frank makes us work to the extent that the method to solve the problem is engrained in our minds. Even though at times he does not answer all the questions we have (because of the 50 minute time constraint) he believes that it’s better to take the time to do something right and correct than just rush through it. He is an awesome TA. Thanks, Malcolm Fernandes

9) Frank is an incredible TA, who was able to simplify the material and explain it in depth, but at an easy rate.

10) Frank was an exceptional TA who really made sure we were clear on the concepts, not just answers.

11) I really liked the TA, he really helps students and understands the materials. he is very willing to encourage students.

12) Frank is an amazing teacher, he relates really well to each of his students and always ensures that you understand the material before you leave the room. He is the only TA I have ever had that sacrifices his own personal time to make sure his students are prepared for a quiz by scheduling extra office hours. Overall, he is an amazing teacher and a great guy!

13) This TA is very useful and I can go to him with any question and get my questions answered. He is very approachable for a re-grade on quizzes and or midterms.

14) Pretty good.

15) Franklin always made sure I understood the concepts and took the time to answer all my questions.

16) :-}
